P. Kitengule Healthcare Ltd has the vision of providing establishments set on the principles of competence, commitment, compassion, convenience and effectiveness. We through our outreach aim at redefining the meaning of healthcare and its dimensions. We believe in being the true ‘Partners in Health’- for the community, ensuring that along with guidance, attention and care, expertise is delivered with cutting edge technology and precision.

Fostered with the strength of its flagship hospital- Kitengule Hospital, the aim of P. Kitengule Healthcare Ltd is a pioneer in transpiring realities of healthcare- providing expert care where the same is inaccessible and inadequate.

We at P. Kitengule Healthcare Ltd believe that the journey of success needs forces of passion & dedication. These are imperative for growth and quality performance and we want to evolve as a corporate with a ‘conscious’.

P. Kitengule Healthcare Ltd also aims at being the pioneer in changing the perception that quality healthcare provided by private hospitals is beyond the reach of common man, with choice of cost effective care and a wide range of services and facilities to choose from.

At P. Kitengule Healthcare Ltd you can access the medical services for – Neurosciences, Orthopedics & Joint Replacement, Urology, Nephrology, Surgery, Obstetrics & Gynecology, Nematology & Pediatrics along with Cardiology. P. Kitengule Healthcare Ltd shall ensure that rare specialities like Endocrinology & Rheumatology are also provided to all. We also assure that our medical endeavors shall always be abreast with the latest developments in the scientific field as we understand that today’s tomorrow may become yesterday.
For us, our accomplishments and our happy moments shall encompass from saving lives and making every patient who walks into the Hospital of P. Kitengule Healthcare Ltd healthy and fit.

*Your Health, Our Mission.*

**Dr. Sebastian Ganyaka** (MD, MMED)
**Senior Consultant Obstetrician & Gynecologist**
Managing Director and CEO
P. KITENGULE HEALTH CARE LIMITED is local company owned by Tanzanians, was found and registered under law of United Republic of Tanzania Companies Act of 2002 in the year 2009 with registration number 74038. KITENGULE HOSPITAL is registered under this company and it complies with the Ministry of Health and Social Welfare guidelines. The headquarters of the company is in Kinondoni District, Dar es Salaam Region, Tanzania where the Hospital is located too. The company runs a modern and new fully finished Hospital that is located in Tegeta Kibaoni area, plot no 2271, Block K in the Northern Kinondoni district, with a variety of health care services and 10 years of experience in health care provision.

Since the establishment of the health care facility, the company has been fast growing in terms of services delivery and customer care bases. The best part of P. KITENGULE HEALTH CARE includes its ability to adapt fast growing and changing demands of the clients, which is function of several factors mainly competition, economic, social and technological advances as far as Health care services are concerned. P. KITENGULE has been working seamlessly to create added value and synergies which most of the time resulted into practical and sustainable solutions for clients (mostly outpatients and inpatients).

Kitengule hospital is among, new big hospital in kinondoni district with qualified and experienced health worker staffs. The hospital is equipped with modern facilities which simplify the work of service providers and the patients feel much better while getting services.
Kitengule hospital came into existing March 2019 and is a private hospital directed by Dr. Sebastian Ganyaka who is Managing Director. He is the overall responsible for directing all issues concerning the company to make sure that the goals set are met.

Mrs. Leah M. Mkubulo is the Financial Manager and one among of Directors of Kitengule Hospital. She is experienced person in finances and she is responsible for financial issues.

The company had a Board of Directors and hospital board who meet twice a year and they are responsible in strategic planning and decision making of the hospital.

In order to run our business professionally, compliance with health sector regulations; the company recruited employees with high integrity. We have trained and qualified doctors, enough trained nurses, specialists, technical staffs, administrative staffs to support the company activities. We have a total of enough number of employees with different cadres who works 24/7 to make sure our patients get the best services they deserve.

We have experienced and committed consultants (for professional guidance) who are specialized in accountancy, legal, insurance, risk Management who assist us to make sure we run our business smooth.
